Market News

NEW YORK, Jan. 31.—Stock trading today was again dull. Interruption to wire service by the storm contributed to these conditions, but there was little in the week-end situation to effect any change in sentiment.

Advances on principal railway terminals indicated a slight gain in the movement of tonnage and the Middle West reported a better demand for barbed wire coupled with heavy sales of foodstuffs.

Further cuts were announced in crude and refined oils, however, and the trend of general industrial conditions was marked by many additional wage reductions.

Declaration of the regular dividend on Studebaker common infused a measure of strength to motors and their subsidiaries. This was accelerated by news that several large Detroit motor companies had resumed operations on a 50 per cent basis.

Oil, notably General Asphalt, Mexican Petroleum and Houston, several of the food and rubber specialties and coppers as represented chiefly by American Smelting, made up most of the session's
